

2019 Project Funding Grant Update - Yelena Alexander

This grant was used to support our literacy program at Sherwood Forest Elementary school by expanding our library with books that reflect and celebrate our diversity. Before the school closure due to COVID 19, the Reading Around the Forest program provided enriching literacy opportunities for our ELLs and their families by sending books home to read at their level. Unfortunately, during this crisis, we were unable to continue the program, but we used this grant to purchase a variety of high interest, culturally relevant, leveled books to increase reading abilities and language proficiency of our students. Once we are back to school in the fall, we will be sending these books home for our students to enjoy.

Thank you again for supporting our program!
